Mr. Dreher Responsible for the Rotations Symmetry Manufacturing

// A lot of things have been automated. But in context with uncompromised quality, precision and on-time delivery, the human being will always make the difference. We are looking forward for your order. //

Facts

Rotations Symmetry Manufacturing

Maplan organizes its advantage: Manufacturing on highly efficient and flexible machining center offers a multitude of machining possibilities at highest precision and shortest leadtimes.

Horizontal

Max. dim. 1000mm x 10000mm,
max. weight 10.000kg
Machining centers with a multitude
of machining possibilities at highest
precision and shortest leadtimes.

Manufacturing possibilities:

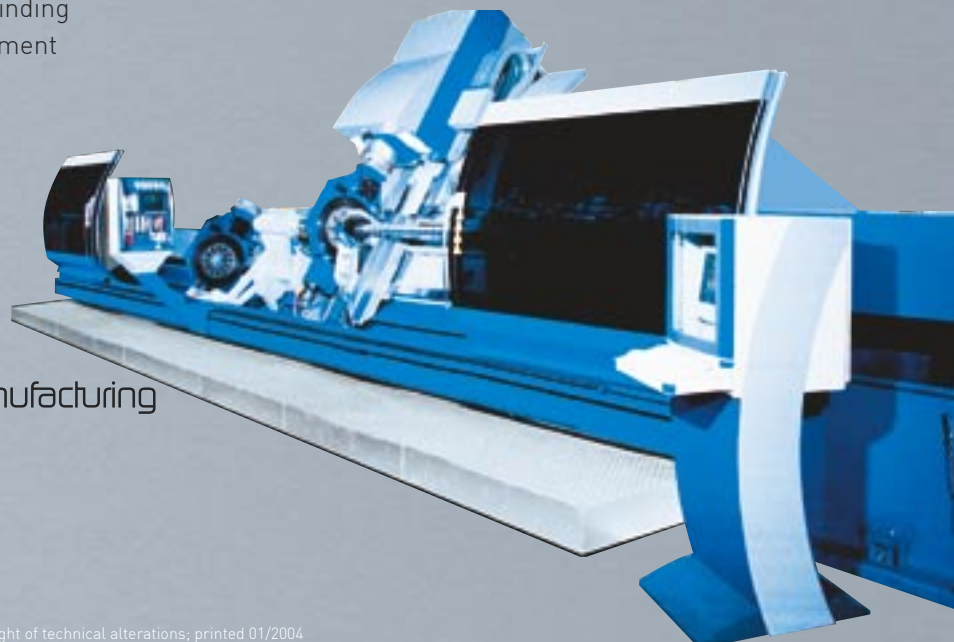

- Turning
- Milling
- Boring
- Whirling
- Straightening
- Balancing
- Deep hole drilling
- Flat Grinding
- Cylindr. grinding
- Heat treatment

Vertical

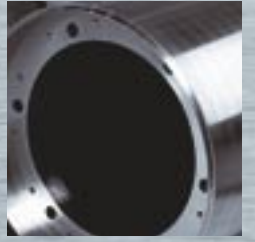

Max. dia. 2000mm x 1500mm,
max. weight 20.000kg
Machining centers with a multitude
of machining possibilities at highest
precision and shortest leadtimes.

Manufacturing possibilities:

- Turning
- Boring
- Milling
- Grinding
- Heat treatment

The manufacturing

„ best of Metal “
